BELANCA PLANE HOPS OFF; GOES STRAIGHT TO SEA

Chamberlin and Levine Off
For Unannounced Point
Today

ARE SEEN AT CAPE COD

Rumors Say That Pair Will
Attempt To Reach
Berlin

PROVINCETOWN, Mass., June 4 (I. N. S.).—The great Belanca monoplane Columbia, carrying Clarence D. Chamberlin and Charles A. Levine on a trans-Atlantic non-stop flight swung out to sea off the tip of the long arm of Cape Cod at 8.45 a. m. today (eastern daylight time).

The plane, which had been previously reported at Dartmouth and New Bedford, on the mainland, was identified by coastguardsmen of the Wood End station near here. The coastguardsmen stated that through field glasses they observed the numerous 140 distinctly on the side of the big plane as it passed out to sea flying high in the sunlight.

ROOSEVELT FLYING FIELD, N. Y., June 4 (I. N. S.).—Another non-stop trans-Atlantic airplane flight got under way today when Clarence D. Chamberlin, piloting the great Belanca monoplane Columbia, hopped off for Europe shortly after 6 o'clock (eastern daylight time) from the same runway that Charles A. Lindbergh left on his historic flight a fortnight ago.

Carl Schory, secretary of the American Aeronautical Association, gave the official time as 6:05:27 (eastern daylight).

Chamberlin was accompanied by Charles A. Levine, millionaire head of the Columbia Aircraft Corporation, builders of the Columbia.

No official announcement was made as to the destination of the Belanca plane—Columbia—but it was generally understood that Chamberlin would try to reach Berlin and go even farther if possible.

Edgely Man Accused Of Stealing Auto and Machines

William Vorhis, Edgely, was taken to Doylestown, after being arrested by the Bristol police on the charge of stealing the automobile and two sewing machines belonging to Max L. Hess, Mill street. The value of the property is given as \$680.

According to the police Hess on April 19th picked Vorhis up to give him a ride on his machine. Hess left the car with Vorhis in it and went to transact some business and upon his return found the car and sewing machines and Vorhis gone. Witnesses testified that they had seen Vorhis driving the car after this and the machine was later found abandoned at Bangor, Pa.

DELIGHTFUL AUTO TOUR WITHIN THE STATE

Motor Trip Lasting Four Days
Is Described For
Autoists

THE SCENERY IS VARIED

A four-day motor trip, entirely within the state of Pennsylvania, on which the traveler will see every variety of scenery except the ocean, is outlined by Richard C. Haldeman, president of Pennsylvania Motor Federation.

"Except in Yellowstone National Park there is no four-day American tour more varied and interesting than this swing around the Pennsylvania circle," said Mr. Haldeman. "A New England tour is dull in comparison, nor is there so much variety in a drive through the Asheville region of North Carolina. Every minute's drive of the four days will be over perfect roads. By side excursions to historic or scenic points the trip may be lengthened to a week."

The "Pennsylvania circle" referred to by Mr. Haldeman is as follows:—and interior-Pennsylvanians may begin it where they see fit:

From Pittsburgh over the Lincoln Highway (Route No. 1) to Philadelphia; from Philadelphia over Lackawanna Trail (Route No. 2) to Mt. Pocono; from Mt. Pocono over the Sullivan Trail to Wilkes-Barre; from Wilkes-Barre to Scranton; from Scranton over Route No. 2 to Clark's Summit; from Clark's Summit to Towanda; from Towanda over the Roosevelt Highway (Route No. 7) to Waterford; from Waterford over Route No. 5 to Franklin; from Franklin over Route No. 8 to Pittsburgh.

The distance around this "circle" is 337 miles, divided as follows: From Pittsburgh to Gettysburg, 173 miles; to Philadelphia, 117 miles; to Delaware Water Gap, 84 miles; to Mt. Pocono, 19; to Wilkes-Barre, 38; to Scranton, 18; to Clark's Summit, 105; to Towanda, 59; to Coudersport, 105; to Erie, 169; returning to Waterford, 15; to Meadville, 26; to Franklin, 29; to Butler, 46; to Pittsburgh, 34.

"During the last three or four years," said Mr. Haldeman, "the Pennsylvania Highway Department has spent over \$1,000,000 in widening and grading the Lincoln Highway between Bedford and Chambersburg. Carefully driven, the road through Pennsylvania's most beautiful mountains is as safe as the drives in Fairmount Park, Philadelphia, or Schenley Park, Pittsburgh. The Highway department's statistics show that few accidents occur on this thoroughfare. A huge sum of money has been spent in the Pocono Mountain region, from Water Gap to Wilkes-Barre, and a drive over the General Sullivan Trail is a revelation. The traveler's greatest surprise awaits him on the Roosevelt Highway, where an almost-unbroken ribbon of concrete connects Towanda and Erie.

"On this trip the traveler sees the different ranges of the Allegheny mountains, visits Gettysburg and passes through the wonderful farming lands of York and Lancaster counties. In the Gettysburg-Chambersburg region he will see not only peach and apple orchards that make it famous, but thousands of acres of tomatoes of such quality that a Pittsburgh canner of national fame has opened a special tomato cannery in Chambersburg. Beyond the iron town of Coatesville is Paoli, and a short distance north of Paoli is famous Valley Forge, Philadelphia and surrounding territory contain a hundred historical shrines. North of Philadelphia, on the Lackawanna Trail, are more such shrines, in the midst of a rich agricultural region. The traveler may see canal boats in operation. A few miles east of Route No. 2 is a state highway skirting the Delaware river, on both sides of which will be found many summer colonies. Beyond the cement mills of the Easton region are the

SHOW RECORD INCREASE IN MARRIAGE LICENSES

Over 100 More Issued Than
Far This Year Than
Last

BRISTOL AGAIN IN LEAD

DOYLESTOWN, June 4.—Records in the office of the Clerk of Orphans' Court of Bucks County where marriage licenses are granted show that 109 more licenses were issued during the first five months this year than last year. This is a record increase over any previous year in the records of the office.

During May there were sixty-three couples granted licenses bringing the total for the year up until yesterday to 314. The increase this year is due to the great number of non-residents who come to Doylestown for marriage licenses. During May alone, twenty-one residents of New Jersey, many of them from Trenton, and twenty residents of Philadelphia, were among the applicants who received licenses. Four states including Pennsylvania, Indiana, Illinois and New Jersey were represented among the applicants in May.

"We treat them right over here and they tell others I believe," declared Jacob Shelly, Clerk of Orphans' Court yesterday. "The business this year is a very fine increase over last year and indications are that it will continue throughout the year."

The average ages of the female applicants in May was twenty-five while the male applicants averaged twenty-eight years. Eight of the female applicants were older than their partners. Seven men had been married once before and another twice before, while seven women had been married previously.

The records show that the popular age in May was between twenty-one and twenty-five years, more than fifty per cent. of the applicants coming under the classification.

Only two applicants were over sixty years of age. One man, aged 63, se-

BIRTHDAYS

On the household calendar there is no more important event than birthday anniversaries of the children. Times and customs change and it is said the home is not what it used to be, but a child's birthday anniversary still remains a red-letter day.

Of course there are birthday presents and great confusion during the administering of one spank or one tug of the ear for every year the little heir or heiress has been in the household. And sometimes the occasion is celebrated with a birthday party.

Every fond parent knows it is out of tune to punish Little Bobby on his birthday, so the day is inaugurated with solemn vows that no matter what he does there are to be no scoldings or whippings that day. Unfortunately the juvenile hero of the day has more reasons for being naughty on his birthday than at other times. He is excited and full of energy. He cannot understand why he cannot have his own way since it is his birthday party. And he is quick to discover that the bars of parental discipline have been lowered for the day.

Youthful minds do not distinguish between liberty and license. Nor do they realize that there are other rewards for being good than security from punishment. If the parental vows of the morning are broken one usually knows where to place the responsibility.

A birthday anniversary without temper or tears is ardently to be desired, but seldom realized. For though the honored one may have been a gift from the gods his conduct is most human even on the anniversaries of his presentation.

PIE AND FAT MEN

Will the wonders of science never cease?

Just the other day an investigator informed a waiting world that, after months of laborious research, he had found pie to be a food.

Now two other scientists astonish us with the statement that fat men are, generally speaking, more emotional than lean men and that neither fatness nor leanness is an indication of intelligence or its lack.

Of course, the results of the investigation were couched in no such simple language as this. Both scientists were working with what they termed "the morphologic index." This is derived by dividing the length of one arm plus the length of one leg by the volume of the body trunk. If the ratio is high, it means that the subject is a tall, slender person known to anthropologists as a "dolichomorph." If the ratio is low, the subject is short and fat and known as a "brachymorph."

No one knows precisely what makes one man fat and another tend toward leanness, but it is supposed that the activity of the ductless glands has something to do with the matter.

Painstaking inquiry confirmed the general hypothesis that a brachymorphological characteristic is found in the ability to rise to great heights of joy or sink to equally great depths of despair. Also, that a dolichomorph is not necessarily more or less intelligent than a brachymorph.

And that, along with the solution to the Great Pie Mystery, is that.

The value of a hug depends upon the law of supply and demand.

One way of getting what you want is by wanting nothing.

Bristol Ball Team Is Under New Management

The Bristol baseball team will play the Tulpehocken Reds on Sullivan's Field tomorrow afternoon at 3 o'clock, under new management.

William Dougherty and Frank Plum, veterans in the management of baseball teams, have taken over the local organization, and promise a real team, having signed Foster, of Burlington, to do the pitching, with Deitrich catch-

ing. Brown, of Tacony, on first; Eddie Roe at second; Cook and Aventz, of Burlington at short and third base, respectively; Dan McDevitt, center field; Castor, of Morrisville, right field; Riola in left field, and Walter Arrison will fill the utility role.

"Bill" Dougherty says that the game will start at 3 o'clock, sharp, and that the fans can depend on a prompt start. He also states that Bridesburg will furnish the opposition next Sunday, with Frankford Yellow Jackets here the week following.

Delightful Auto Tour Within The State

cavernous slate quarries of Bangor and vicinity. Then come Delaware Water Gap, Stroudsburg and the Poconos, a summer playground of real beauty. A short distance from Wilkes-Barre is famous Harvey's Lake, the largest in the State. The collieries of the Wilkes-Barre-Scranton region are worthy of a visit. Between Scranton and the New York line the Lackawanna Trail is a perfect road, and for 30 miles utilizes the old roadbed of the Lackawanna Railroad. On this circle, however, the traveler turns West at Clark's Summit, traveling via Wyalusing to Towanda. There is a short earth section near Wyalusing. Near the latter town is Flat Rock, from which the traveler may peer straight down eight hundred feet to the Susquehanna River. From Towanda to Erie there is a more perfect road. Near Coudersport is the famous "ice mine." The city of Erie maintains a municipal bathing beach on pretty Presque Isle. A reproduction of Perry's famous flagship floats in Erie basin. Southwardly from Erie the concrete highway passes through the oil and gas fields of Pennsylvania. Pittsburgh, with its famous Black House, Carnegie museum, Schenley park, its steel mills and the Westinghouse plant has much of interest.

"The summer touring season in Pennsylvania begins in earnest when the schools close. Pennsylvanians will find all the famed 'beauties of nature' within the boundaries of their own State—that is, all except the ocean. And Lake Erie is a first-class substitute for the ocean, so far as summer activities are concerned."

Mr. Haldeman says that each week during the next three months the Motor Federation will outline a new Pennsylvania tour.

In thousands of average American homes there are now two automobiles—"a car for her, too," so there may be transportation for the family while "he" drives away to work.

And the family car has such an infinite degree of usefulness! Downtown shopping, taking the children to school, afternoon calls, meeting trains and the many additional trips that must be made to and from the house as a part of every day's routine.

No other car is so admirably suited to a woman's requirements as the Most Beautiful Chevrolet.

With striking new bodies by Fisher, and finished in pleasing colors of lustrous, lasting Duco, it provides in abundance the comfort, charm and elegance that

women admire in a motor car. It is easy to start because of its Delco-Remy electric starting system—famous the world over for its excellence. It is easy to stop because of powerful, over-size brakes. And it is easy to drive and park because of a modern three-speed transmission, smooth-acting disc clutch, and a semi-reversible steering gear that gives finger-tip steering.

Visit our showroom and see the Most Beautiful Chevrolet. Note the wide variety of body types. Mark their sweeping lines and carefully executed details. And then ask us to explain the easy terms on which a Chevrolet may be purchased—terms that include the lowest combination of handling and financing charges available anywhere.
